

EBTEHAL YAHYA ALZHRANI

Full Stack Developer & UI/UX Designer

+966 557245428 | Ebtehal.alzah@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio Website](#)

PROFESSIONAL OBJECTIVE

First-Class Honors Software Engineering graduate specializing in full-stack web and mobile development, with a strong focus on UI/UX design. Passionate about building seamless, user-centric digital experiences and looking to join an innovative team where I can continue learning, refine my skills, and contribute to impactful technological solutions.

EDUCATION

UNIVERSITY OF JEDDAH

Bachelor of Software Engineering (First-Class Honors)

Jeddah, KSA

2022 – 2026

GPA: 4.90 / 5.00

SKILLS

- Technical Skills:** Java, Python, Dart, HTML5, CSS3, JavaScript, React, TypeScript, Node.js, MongoDB, Figma.
- Soft Skills:** Problem-Solving, Time Management, Creativity, Teamwork, Adaptability.

EXPERIENCE

Development Data Center (DDC)

06/2025 – 08/2025

Web Developer Trainee

- Contributed to building 'Rayah', an interactive, story-driven educational web platform built to display major Islamic historical milestones visually.
- Collaborated with the team to create engaging, story-driven user experiences with improved usability and visual structure.

Google Developer Groups – University of Jeddah (GDGUJ)

02/2026 – 05/2026

Web Design & Development Committee Member

- Designed the high-fidelity user interface (UI) for an interactive, web-based game platform deployed during university workshops and core technical activities.
- Developed responsive front-end components and refactored core layout mechanics to substantially improve layout fluidity and overall active user experience.

KEY TECHNICAL PROJECTS

Rafah Platform | Web Platform (Senior Graduation Project)

A web-based quality-of-life analysis platform that helps users compare neighborhoods in Jeddah using trusted Saudi data sources, interactive visualizations, and an AI-powered assistant.

Rayah Platform | Web Platform

An interactive educational web platform showcasing major Islamic historical events through engaging storytelling, visual elements, and immersive user experiences.

Yaqeen Application | UI/UX Design

A UI/UX design project for a Hajj and Umrah application that helps users track Tawaf and Sa'i through a smartwatch while providing real-time family monitoring and essential pilgrimage services.

AWARDS & HONORS

3rd Place Winner – Historical & Heritage Sites Hackathon

2025

By Umm Al-Qura University

Yaqeen Application

Jahiziyyah Academic Excellence Medal

2026

By Education and Training Evaluation Commission (ETEC)
