- Soft Skills:** Problem-Solving, Time Management, Creativity, Teamwork, Adaptability.

EXPERIENCE

Development Data Center (DDC)

06/2025 – 08/2025

Web Developer Trainee

- Contributed to building “Rayah,” an interactive educational platform using React and MongoDB, focusing on UI/UX and responsive front-end development.

Google Developer Groups – University of Jeddah (GDGUJ)

02/2026 – 05/2026

Web Design & Development Committee Member

- Contributed to developing responsive front-end interfaces for an interactive gaming platform used in university workshops and events, with a focus on usability and UI consistency.

KEY TECHNICAL PROJECTS

Rafah Platform | Web Platform (Senior Graduation Project)

A quality-of-life analysis platform for neighborhoods across Saudi Arabia that enables users to explore, filter, and compare districts based on multiple quality-of-life indicators through interactive maps, data visualizations, and an AI-powered chatbot assistant. Developed using HTML, CSS, JavaScript, Python, and MongoDB.

Rayah Platform | Web Platform

An interactive educational web platform showcasing major Islamic historical events through engaging storytelling, visual elements, and immersive user experiences. Developed using React, JavaScript, and MongoDB.

Yaqeen Application | UI/UX Design

A UI/UX design project for a Hajj and Umrah application that helps users track Tawaf and Sa'i through a smartwatch while providing real-time family monitoring and essential pilgrimage services. Designed using Figma.
